The Holocaust in Hungary Feb 08 2021 The Holocaust in Hungary provides a comprehensive documentary account of one of the most brutal and effective killing campaigns in history. After Nazi Germany took control of Hungary late in World War II, Jews were rounded up with unprecedented speed and sent directly to Auschwitz. They would form the largest group of victims who perished in that camp. The complex interplay between German and Hungarian actors brought about the annihilation of a once-thriving Jewish community and the murder of hundreds of thousands of Jewish men, women, and children. The authors present extensive reports, testimonies, and other primary sources of these

events accompanied by in-depth commentary that spans the years from the late 1930s to the fractured political landscape of postwar Hungary.

A Teacher's Guide to Land of Hope Jan 28 2020 This Teachers' Guide to Wilfred McClay's Land of Hope: An Invitation to the Great American Story will be an invaluable aid to classroom teachers who use Land of Hope as a textbook for courses in United States history. McClay has coauthored the Guide with John McBride, a master teacher with over thirty years of secondary and collegiate teaching experience. The result is an exceptionally rich and useful resource for the enhancement of the classroom

experience. Each chapter of *Land of Hope* has a five-part treatment: a short summation of the chapter's contents, a lengthy set of questions and answers about the text of the chapter, materials that can be deployed in testing or used to sharpen classroom discussion; a set of short objective tests, suitable for quizzes and exams; a primary-source document for class study and analysis; and questions and answers to accompany the document. In addition, there are special units to assist teachers in the giving special coverage to the Declaration of Independence, the Constitution, the Bill of Rights, and the Origins of the Two-Party System. Like *Land of Hope* itself, these materials are designed to help students come away from the study of the American past with a coherent sense of the larger story, and a sense of history as a profoundly reflective activity, one that goes to the depth of our humanity.

Big Promises, Small Government Apr 24 2022 When Gordon Campbell's Liberal government won a massive majority in British Columbia in 2001, the premier immediately fulfilled his pledge to cut personal income taxes. **Big Promises, Small Government** reveals the consequences of dramatic tax policy changes on

social programs. Campbell expected lower taxes to spur investment and growth. Instead, cutting taxes, while exempting health and education, left smaller ministries scrambling to absorb the cuts to maintain a balanced budget, with disastrous effects. This insider recounting of the real-world genesis, implementation, and consequences of a tax policy offers vital lessons to future governments and insight into the role of taxes in society.

Commerce in Culture Nov 27 2019 "Sibao today is a cluster of impoverished villages in the mountains of western Fujian. Yet from the late seventeenth through the early twentieth century, it was home to a flourishing publishing industry. Through itinerant booksellers and branch bookshops managed by Sibao natives, this industry supplied much of south China with cheap educational texts, household guides, medical handbooks, and fortune-telling manuals. It is precisely the ordinariness of Sibao imprints that make them valuable for the study

of commercial publishing, the text-production process, and the geographical and social expansion of book culture in Chinese society. In a study with important implications for cultural and economic history, Cynthia Brokaw describes rural, lower-level publishing and bookselling operations at the end of the imperial period. *Commerce in Culture* traces how the poverty and isolation of Sibao necessitated a bare-bones approach to publishing and bookselling and how the Hakka identity of the Sibao publishers shaped the configuration of their distribution networks and even the nature of their publications. Sibao's industry reveals two major trends in print culture: the geographical extension of commercial woodblock publishing to hinterlands previously untouched by commercial book culture and the related social penetration of texts to lower-status levels of the population."

Hadrian's Wall as World Heritage Jun 14

2021 Hadrian's Wall was inscribed as a World Heritage Site (WHS) in 1987 and, with the German Limes, became one of the first two parts

of the transnational 'Frontiers of the Roman Empire' (FRE) WHS in 2005. The World Heritage Site of Hadrian's Wall is unusual, although not unique, among World Heritage sites in its scale and linear nature: stretching from Ravenglass on the west coast of England to Newcastle upon Tyne on the east coast - over 150 miles. Along its length it passes through two major urban centres and a variety of rural landscapes and its remains vary from substantial upstanding architectural features to invisible below ground archaeology. Traditionally many of the constituent parts of Hadrian's Wall, forts etc, have been managed as separate entities by different State and private organisations. These and other issues make it an extremely complex WHS to manage. This book not only chronicles the past management of the Wall but also looks towards the future as more countries aspire to have their Roman frontiers added to the FRE. The experience gained over the last two decades illustrates developments in the management of

large scale complex heritage sites that will be of value as a detailed case study to those involved in (and affected by) heritage management, as well as academics, and students. Many of the issues raised will find resonance in those faced by many other large (World) heritage sites.

Eunuch and Emperor in the Great Age of Qing Rule Oct 26 2019 Eunuch and Emperor in the Great Age of Qing Rule offers a new interpretation of eunuchs and their connection to imperial rule in the first century and a half of the Qing dynasty (1644-1800). This period encompassed the reigns of three of China's most important emperors, men who were deeply affected by the great eunuch corruption of the fallen Ming dynasty. In this groundbreaking and deeply researched book, the author explores how Qing emperors sought to prevent a return of the harmful excesses of eunuchs and how eunuchs flourished in the face of the restrictions

imposed upon them. We meet powerful eunuchs who faithfully served, and in some cases ultimately betrayed, their emperors. We also meet ordinary eunuchs whose lives, punctuated by dramas large and small, provide a fascinating perspective on the Qing palace world.

Building an Electronic Records Archive at the National Archives and Records Administration

Administration Mar 12 2021 The federal government generates and increasingly saves a large and growing fraction of its records in electronic form. In 1998, the National Archives and Record Administration (NARA) launched its Electronic Archives (ERA) program to create a system to preserve and provide access to federal electronic records. To assist in this project, NARA asked the NRC to conduct a two-phase study to provide advice as it develops the ERA program. The first two reports (phase one) provided recommendations on design, engineering, and related issues facing the program. This report (phase two) focuses on longer term, more strategic issues including technology trends that will shape the ERA system, archival processes of the ERA, and

future evolution of the system. It also provides an assessment of technical and design issues associated with record integrity and authenticity.

Reforming America May 26 2022

Transforming the Nation Dec 29 2019 Brian Mulroney captured the leadership of the Progressive Conservatives and became the first prime minister in thirty-five years - and the first Conservative since Sir John A. Macdonald - to win consecutive majorities. His victory was the largest in Canadian political history, yet his party was almost wiped out in the election following his resignation. In *Transforming the Nation*, leading Canadian politicians and scholars reflect on the major policy debates of the period and offer new and surprising interpretations of Brian Mulroney. Mulroney had a tremendous impact on Canada, charting a new direction for the country through his decisions on a variety of public-policy issues - free trade with the United States, social-security reform,

foreign policy, and Canada's North. The Mulroney government represented a dramatic break with Canada's past. Mulroney received severe criticism for many of his new initiatives and left office with the lowest approval rating of any Canadian prime minister. However, much of the legislation he put in place was both embraced and expanded by the Liberals who succeeded him. Transforming the Nation is a significant contribution to our understanding of the complex world of Canadian public policy during the Mulroney era.

Big Science and Research Infrastructures in Europe Jul 16 2021 This thought-provoking book expands on the notion that Big Science is not the only term to describe and investigate particularly large research projects, scientific collaborations and facilities. It investigates the significant overlap between Big Science and Research Infrastructures (RIs) in a European context since the early twenty-first century. Contributions to this innovative book not only

augment the study of Big Science with new perspectives, but also launch the study of RIs as a promising new line of inquiry.

Emperor and Aristocracy in Japan, 1467-1680 Feb 29 2020 An institution in decline, possessing little power in an age dominated by warriors? Or a still-potent symbol of social and political legitimacy? *Emperor and Aristocracy in Japan* traces the fate of the imperial Japanese court from its lowest point during the turbulent, century-long sengoku, when the old society, built upon the strength and influence of the court, the priesthood, and a narrow warrior elite, was

shaken to its foundations, to the Tokugawa era, when court culture displayed renewed vitality, and tea gatherings, flower arranging, and architecture flourished. In determining how the court managed to persist and survive, Butler looks into contemporary documents, diaries, and letters to reveal the court's internal politics and protocols, hierarchies, finances, and ceremonial observances. Emperor and courtiers adjusted to the prominence of the warrior elite, even as they held on to the ideological advantages bestowed by birth, tradition, and culture. To this historical precedent the new wielders of power paid dutiful homage, ever mindful that ranks and titles, as well as the political blessing of the emperor, were advantageous marks of distinction.

Changing Governance of Research and Technology Policy Jan 10 2021 This collection analyses and comments on the development of the ERA, which seeks to co-ordinate national research and advance European wide projects.

The contributors include leading scholars of European integration and technology policy and high-level administrators. They discuss the potential impacts, benefits and limits to research and innovation policy within Europe both in the short and long term. Moreover, the debate about ERA is placed firmly in the context of the overall changes at the European level.

Unauthorized Methods Aug 05 2020 This work makes accessible and practicable some of the best theoretical innovation in critical pedagogy of the last decade. Issues of knowledge are explored as the authors consider how an integration of popular culture and cultural studies into the lesson plan can enrich and re-invigorate the learning experience. These essays, ranging widely in topic and educational level, are based in theory but are practice-oriented. In translating this theory, the contributors provide educators with techniques which will inform rather than oppress classroom skills.

A Student Workbook for Land of Hope Sep

25 2019 When we published Land of Hope in May of 2019, we had an immediate response from teachers and students that (1) they loved the book, and (2) they would need ancillary materials to aid them in the use of the book for classroom instruction. We jumped right on that, and produced a Teacher's Guide, which appeared in spring of 2020, and we're now following up with a Student Workbook, which is completely coordinated with the Teacher's Guide, featuring study questions (which can also be used for testing by teachers), objective exercises (matching, identification, temporal ordering), primary-source documents and

accompanying study questions, a section of map exercises which include in-text outline maps for student use, as well as back-of-the-book resources such as reference tables for the British monarchy, the American presidency, and a list of suggestive questions that are suitable for extended essays or term papers. It is the perfect resource for both classroom teaching, home education, and hybrid versions of both.
